

As we know, OFSTED has recognised that children create a noticeably higher standard of work when work is linked closely to a child's experience. We are using art to help children make sense of their experiences through this difficult time. Building a bridge between all that has happened and their artistic creativity, a source of self-expression. We are using experience, design, planning and creative learning opportunities as a way of achieving an outlet.

The art has an experiential dimension which allows us to take the children's world and experiences seriously. Children have been extremely resilient, they have adapted to the unprecedented times and shown great strength, perseverance, understanding and patience.

The children from North Borough Junior School have created pieces of art which shows what has sustained them. They have generated ideas through experience and inspiration from artists and designers throughout the curriculum, developing these ideas to create a finished piece..

The finished pieces are displayed in Church. Families and friends are very welcome to come and view the artwork in the church at these times. Several church members have volunteered to accompany visitors, and we look forward to seeing you all and learning about the children's experiences and inspirations.

St Paul's Church will hold an exhibition on:

Monday 26th July between 5 pm & 6pm and;

Tuesday 27th July between 9 am & 10 am

The Final Exhibition showcasing a collection of selected most original and thought-provoking creations will be at Kent Life on 23rd - 25th August, where all who have taken part in the project will be invited to attend.

We encouraged children to explore what Hope means to them and allow them to express themselves creatively.

igniting Inspiration, Creativity & Hope all whilst nurturing Well-being in our schools and across the community. Through "Look of Hope".
